DEPARTMENT OF COMPUTER SCIENCE
(M.Sc (Computer Science) & BCA)
K.L. MEHTA DAYANAND COLLEGE FOR WOMEN FBD.
Affiliated to M.D. University, Rohtak

ABOUT THE COLLEGE

K.L Mehta Dayanand College for women Faridabad is acclaimed as one of the premier women's educational institution of Haryana. It was established in 1970 and named after its founder - Shri K.L Mehta, a dedicated social activist and a man par excellence. He left no stone unturned to fulfill Swami Dayanand Saraswati's dream of leading the "Youth from darkness to light". The inception of girl's institution of Higher learning as purely Arts College with 250 students eventually blossomed into multi-faculty post graduate college having 3400 students on rolls. To be in tune with the present times, the college has introduced many job oriented add on courses approved by UGC.

Department of Home Science in the college was established in the session 1975-76 with B.A classes. In 1977-78, B.Sc (Home Science) classes were started in the department. The department has achieved multifarious attainments in academics and co-curricular activities.

The Credit for all around development of the institution goes to the tireless efforts of teaching and administrative staff under the perpetual inspiration of our Management headed by its Chairperson Dr.Vimal Mehta - the learned and dynamic wife of our revered founder Shri K.L Mehta. "Still achieving, Still pursuing" will ever remain our goal. The very nomenclature of our institution "Dayanand" will serve as our beacon light.

ABOUT THE SEMINAR

Cybercrime is a fast-growing area of crime. More and more criminals are exploiting the speed, convenience and anonymity of the Internet to commit a diverse range of criminal activities that know no borders, either physical or virtual, cause serious harm and pose very real threats to victims worldwide.

It is the major crime that is taking place in most part of the world. This crime is done by sitting at home or anywhere. To commit such crime we just require computer and internet connection. This crime is done using computer which is harmful for others like hacking which is not ethical, stealing money bank accounts, downloading files which are not permitted and many people watch sites at cyber cafe which strictly prohibited. All these which are not allowed or we do forcibly is called Cyber crime.

Cyber crimes can be done in four ways like against anyone, or against property or organization or society. Against anyone: it includes the phishing the personal page of any user to extract her password or usernames. Or sending spam mails or messaging illegal messages again and again. Against property: it includes using piracy or against the rules of copyright. Means distributing things which have copyright, or using someone others systems without him permission is also the form of cyber crime. Some intelligent also have the capability of do transaction of money from one account to other.

Today, more companies have an internet connection to support sales activities, or provide their employees and customers with faster data and services. Virtual world has become a true e-business and e-commerce, which are the new mantra and electronic transactions and manage the entire business paradigm. In this rapidly changing online world, which depends on the free-flowing information, security is considered to be major problems. Internet security is important, because data rate of considerable value.

We are organising a national seminar to debate how Cyber crimes can be minimized.

THRUST AREAS / SUB THEMES

- Biometrics Interaction with Cyber Domain
- Cloud Security
- Computer Forensics
- Cryptography and Formal Methods
- Data Protection Legislation and Security
- Forensic Applications of Digital Image Processing
