ABOUT OUR COLLEGE

K.L Mehta Dayanand college for Women, owes its inception to the inspiration which Swami Dayanand put in our hearts. The college rang its first bell in 1970 with the motive of providing higher education to the girls. It is considered one of the premier women education institutions of Haryana. The institution is progressing and rendering invaluable help to impart all round development of the students in faridabad. The college has affiliation in Humanities, Commerce, Science and Home science. Besides this, the college is running various Self-Financing Courses, & many Add-on courses.

ABOUT THE WEBINAR

In this hour of worldwide crisis due to the outbreak of covid-19, cities across the globe are putting all they have to contain the viral spread. Similarly, Indian cities are putting their best foot forward to meet the cause. The covid-19 pandemic has led to a dramatic loss of human life worldwide and presents an unprecedented challenges to public health, food systems and the world of work. A question arises here, is how we can manage the various challenges in this situation? To throw some light on such aspects of the Covid-19 scenario, Department of Science and Home Science, have organized a National webinar.

Nutrients that help maintain Immune Function

- **Proteins**
 - important for cell multiplication and production of protective substances like immunoglobulin and cytokines.
 - Protein deficiency affects integrity of mucosal barrier leading to gastro-intestinal, respiratory and urinary tract infections
